IDP: User Experience Design (UX)
Design UI & UX Components

Who WE are:
Convaise is a Munich-based startup founded by three TUM alumni. We have built our SaaS solution Convaise Studio with which we simplify bureaucratic processes of our corporate and governmental customers by helping them to automatically transform old-fashioned forms and documents into interactive, ML based conversational assistants. We launched in early 2019 and are looking to expand our team in the coming months – sounds interesting? We are excited to hear from you!

What to know before the IDP:
- IDP is supervised by the Entrepreneurship Research Institute (ERI)
- Applications are possible as team or individuals
- Theoretical part is scoped around Entrepreneurship and Management, lectures can be chosen by you

Your RESPONSIBILITIES:
Understand how users and technology communicate with each other and design engaging interfaces with well thought out behaviours for Convaise Studio and our conversational assistants.

- Apply suitable user research methodologies and conduct usability tests
- Create consistent UX prototypes
- Develop reusable design components

Who YOU are:
- You are creative and driven to build the optimal user experience
- Teamplayer with ability to work independently
- Comfortable with engaging with people for user testing
- You are passionate about learning new approaches and building out-of-the-box solutions
- Fluent in English, German beneficial

What we offer:
- Join a highly driven team with flat hierarchies with room and freedom to experiment and learn
- Flexible working times to fit your studies with clear objectives and goals
- Work remotely or on-site in our office in the heart of Munich
- Possibility to join the team as a working student or full time employee

How to apply:
As a team or individual send the following information to stefan@convaise.com:
- CV(s) and LinkedIn (if existing)
- Earliest possible starting date
- Previous projects and team experiences (couple of sentences)
- Any questions you might have
